Oroville Dam Auxiliary Spillway Incident

On 05/07/17 at 1631 hours the California State Warning Center (CSWC) was advised by the Department of Water Resources (DWR) about a scheduled increase flow rate to the Feather River. This will cause the river to become deeper and swifter.

- The increased flow to the Feather River will begin at 0900 hours on 05/10/17. Total flow will gradually increase from 7,750 cfs to approximately 30,000 cfs.
- The Oroville Dam Flood Control Spillway flow will increase to 30,000 cfs.
- Hyatt Powerplant will be operated as needed to meet ramping and storage demands.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) [as of 05/08/17 at 0600 hours](#):

- Inflow: [20,146](#) cfs.
- Outflow: [7,916](#) cfs.
- The current lake elevation is [846.32](#) feet.

Mission Tasking

- 2017-SOC-33363: Road Repair (Butte County) – On Scene.
- 2017-CalOES-34685: Asbestos Monitor (Butte County) – On Scene.

SITUATION SUMMARY

2017 February Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

Per the Cal OES Coastal Duty Officer (CDO), as of 04/27/17, Hwy 1 from the south is closed at Ragged Point and is open at specific intervals to local traffic only. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Placer County:

- Truckee River at Truckee is forecast to be at flood stage at 4.5 feet the evening of 05/09/17.
 - Potential Impacts: Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Alpine County: West Fork Carson River at Woodfords, East Fork Carson River at Markleeville
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto
- Merced County: Merced River at Stevinson

WEATHER OF CONCERN

Weather of Concern

- A ridge of high pressure will build into the area today, bringing temperatures back into the 70s, for most locations, and 80s inland for Monday and Tuesday. By Wednesday, the ridge flattens and pushes southward. This will allow onshore flow to dominate, thus cooling temperatures down for Wednesday and the second half of the week.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

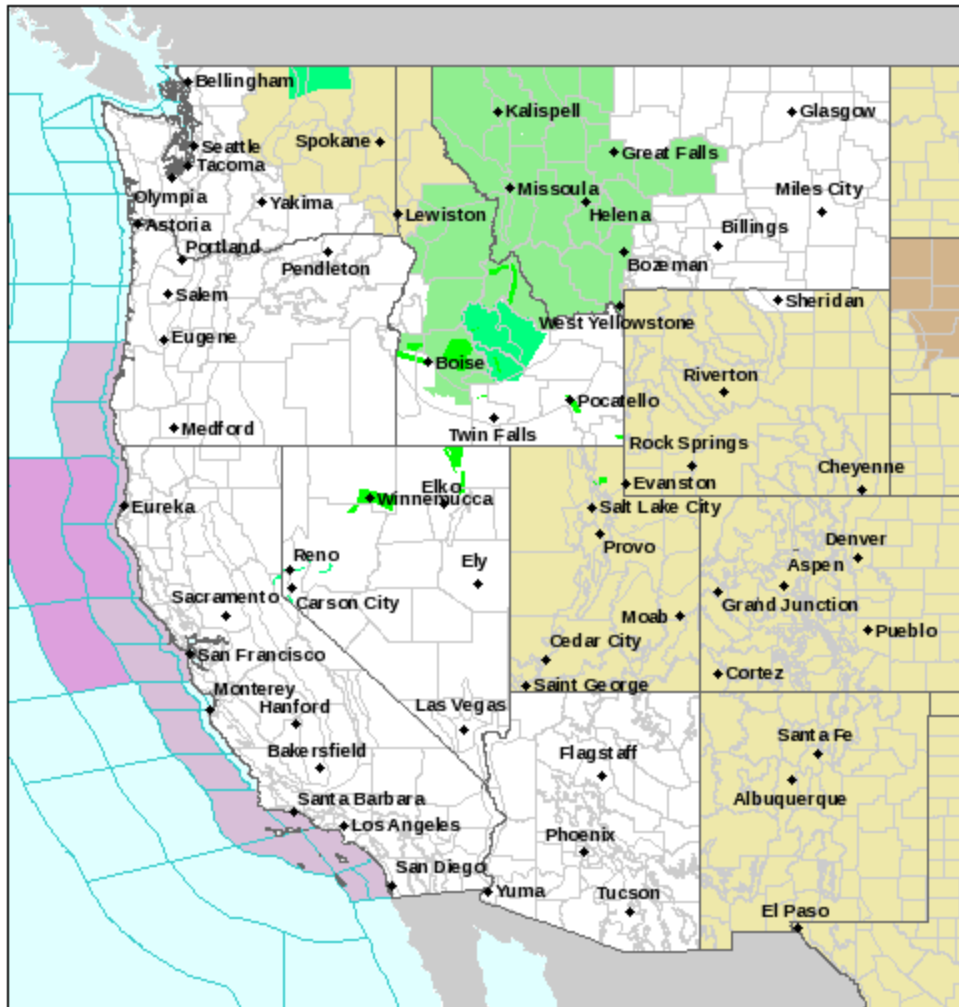

NORTHERN CALIFORNIA

The weather will be cooler with a chance of mountain showers and thunderstorms this weekend. Gusty north winds today and will be warm again early next week. Model analysis and water vapor imagery showed an upper level cut off low pressure system moving southward during the early morning hours over California. Lift along the associated trough edge was initiating convection over Nevada, and easterly flow aloft over northern California was bringing light showers into the Sierra and portions of the lower San Joaquin valley overnight.

SOUTHERN CALIFORNIA

The low will bring precipitation and possible thunderstorms into Monday with near normal temperatures. Precipitation may occur on Tuesday in portions of Los Angeles County and the mountains. A high will build in by midweek for an overnight marine layer into Friday, otherwise fair with above normal temperatures. Another low should approach on Saturday.

Cal OES MISSIONS

Cal OES Missions

- **2016-IREOC-21748:** Tasking Caltrans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
